ESG Ranking Overview

The ESG Rankings are calculated in a way that results in a normal distribution of data between 1, indicating low risk or best performance, and 5, indicating high risk or worst performance. A data depth is provided for each ESG Ranking and separate E, S, and G Ranking, indicating the richness of ESG data behind the corresponding ESG Ranking. The data depth is measured by sources and data points available for the ESG calculation for each topic.

ESG Transparency Statement

Overall ESG Ranking

ESG Good

● Very Good (1) ● Good (2) ● Medium (3) ● Poor (4) ● Very Poor (5)

Sustainable Industry Classification System® (SICS®)

ESG Sector	Industry
Services	Advertising & Marketing

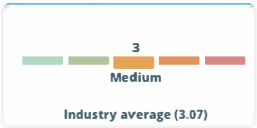

ESG RANKING BY DIMENSION

The ranking for each of the three major dimensions of Environmental, Social and Governance. 1 is the lowest risk (highest performance) and 5 is the highest risk (lowest performance).

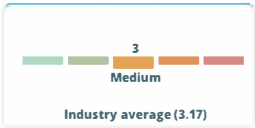

Rankings for E,S, and G Dimensions

● Very Good (1) ● Good (2) ● Medium (3) ● Poor (4) ● Very Poor (5)

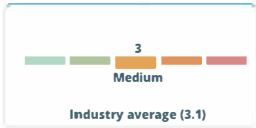

Environmental Medium

Social Medium
